IMPORTANT The present prices of Encyclopedia Brion orders sent to us at once. We are sorry to state that on account of the higher cost of all materials for the making of books, the publishers are obliged to increase the price to us, and we to the general public. The present low prices, will, therefore, be advanced by from one to three monthly payments (from \$3.00 to \$9.00), according to the binding, on or before December 20th. How long it will be possible to maintain these new prices without another increase is uncertain. In any case, if you wish to purchase the Ehcyclopedia Britannica at the present low prices, act at once.

The Miracle of India Paper

How it put the world's greatest library on 29 inches of shelf-space It is India paper—thin, tough, India paper—that reduced the size of the Britannica's 29 volumes from over 5 feet to 29 inches of shelf-space; that reduced their weight to nearly one-third; that was preferred by 145,500 of the 150,000 purchasers of The Britannica: that makes the butannica much more usable, therefore much more valuable: that cannot now be obtained to

print The Britannica. War stops the supply of India paper

No more India paper can be obtained because war has devastated the flax fields of Europe. Only a few thousand sets of The Britannica printed on India paper remain unsold. When these are gone, as they soon will be, no more can be offered. Therefore, your chance for securing this notable library in the most valuable form, depends upon prompt action. 70,000 sets of the "Handy Volume" Issue of The Britannica were sold in 6 months. You can realize that

the present supply cannot last long. You should act at once whether you buy for Christmas or not.

The probabilities are that you have always coveted a set of The Britannica. There is no time so suitable as Christmas time for giving it to yourself or friends—and it is especially important that you order now because of the exhaustion of the supply of India-paper sets. All of these factors make it advisable that you do not delay or ponder upon it.

This is the last time you will have an opportunity to purchase The Britannica printed on India paper as a Christmas gift. This sale will soon be history—the lack of India paper prevents further printing. If you act now you will be the envised owner of a library which cannot be duplicated in form. You must buy this Christmas—not next Christmas, but NOW, to assure ownership and save disappointment.

Send for the "Book of a Hundred Wonders" now

NEW IDEAS OUTLINED

Honor He Advocates New Way of Electing President.

By Wire From the Washington Bu-reau of the Post-Dispatch. WASHINGTON, Dec. 7.—All elements of the Democratic party, from the President down to the most obscure member of Congress, yesterday united in paying a tribute to services given by "The Great Commoner" during the recent of the Democratic party, from the Presi-Great Commoner" during the recent campaign. With Mrs. Bryan, whom he has often proclaimed as his most sagament given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the waste, bile and fermenting food passes out of the system, and you have a well and playful child again.

All children love this harmless, delicious "fruit laxative," and it never cious adviser in position was the guest of President and Mrs. Wilson at luncheon at the White House. At night he was to casted by more than 100 Democrats at a 5 dmner at the Lafayette Hotel, tendered by "deserving Democrats, amid a very pleasong environment," as he de-

very pleasong environment," as he described the event. Forming a background to Bryan's head as he delivered a speech, was the recently executed life-size oil painting showing him in the act of presenting his peace treaty plan to the nations of the earth on April 26, 1913, 16 months before the European war broke out. Thirty nations signed this peace treaty.
Some of them are now fighting, the renainder being Central and South Ameri-

Tribute to the President. Bryan paid a high tribute to President Wilson and felicitated him and the Democratic party upon the achievements which he said were mainly responsible or the success of the party in the re-

cent campaign. Guests at the dinner and Democrats generally were inclined to attach un-usual importance to the speech delivered by Bryan because of the general belief that he would propose some new issues which he would insist should form a part of the Democratic program four years hence. The tenor of his speech was accidedly progressive. He instanced his disapproval of the efforts being made by the railways to take form a part of the Democratic program being made by the railways to take from the various states the power of

"The fact that the railroads asked for it." said he, "is conclusive proof that it is not intended to make regulation more stringent, but rather to relieve them of it by the states."

Bryan unequivocally declared himself opposed to militariam in any form, "because," he said, "we must not allow the character of our nation to be transthe character of our nation to be transformed; we cannot afford to exchange our moral prestige for the privilege of terrorizing people with the display of

House the following tribute to Bryan. which was read by the toastmaster

"Will you not be kind enough to convey my very cordial greetings to Mr. Bryan and to those who are assembled to do him honor at the dinner on Wednesday evening? In the recent campaign no one rendered more unselfish service that Mr. Bryan, and I am happy to know that this dinner expresses the genuine admiration of all Democrats for him. May I not by this gratulations and best wishes for nis

continued health and happiness."

The speakers, in addition to Bryan, were Senators Hollis of New Hamp-shire, Walsh of Montana and Phelan of California and Congressmen Kitchin of North Carolina and Balley of Penn-sylvania. Bryan was the last speaker. After enumerating the achievements of the administration, he paid this tribute to the President:

"These are some of the things accomplished within the short term of one administration under the leader-ship of a great Democratic President loyally supported by a Democratic Congress,"

Discusses the Future. Discussing the future, Bryan said:
"But we study the past not merely the enjoyment that it gives, but for the light that it throws upon the future. Humanity moves along well defined lines and in obedience to laws easily understood. When a surveyor tells you that an established line when extended a certain distance will reach a certain point, he is not uttering a prophecy. He is simply stating a fact.
And so it is not prediction to point out what is coming if we understand the orces that are at work in society.

Before taking up the things which could be secured, it is worth while to onsider for a mament two things that hould be prevented. We cannot afford to allow any backward step, no matter whether our progress in reforms is slow hether our progress in reforms is slow

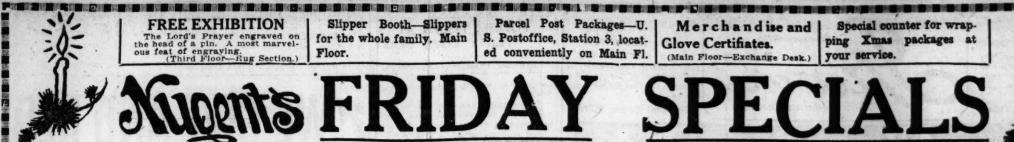

"An effort is now being made by th ailroads to secure legislation, and, if ecessary, a constitutional amendme depriving the states of all regulative power over them and giving to Congress exclusive control over railroad reg-ulation. This is the most far-reaching change that has been proposed since the organization of our Government, and which, if made, would involve incalcuiz-ble harm. The fact that the railroads ask for it is conclusive proof that it is not intended to make the regulation more stringent but rather to relieve the railroads of regulation attempted by the

"The consolidation of all railroad legislation at Washington would not only transfer to the national capital an amount of work which would overwhelm the national authorities, and, therefore, decrease the efficiency of the Federal supervision, but it would bring a rail-road influence into the election of every Congressman and every Senator as well as intensify the railroads' interest in presidential campaigns. It would do more than that. It would practically bliterate state lines and lead to a centralization which would threaten the very existence of our dual form of Govrnment. We must pause in our foreward march long enough to thwart this attempt. National remedies should oe added to state remedies, not substituted

to the menace of militarism as it is now presented in concrete form. A large increase in the number of army and navy officers drawing salaries for life, and trained in a profession which teaches reliance upon the steel blade, rather than upon the sword of truth, ends to substitute false standard of nonor for the more peaceful standards

BRYAN DISCUSSES FUTURE ISSUES AT PARTY LOVE FEAST

Continued From Preceding Page. that prevail among the producers wealth.

"It is not unnatural that the magnify-ing of the profession of arms should give support to the proposal for universal military service, a system which is not only unnecessary, but the adoption of which could not fail to breed that military solutions. that military spirit which has contributed so largely to the encouragement of war in other lands. We must not allow the character of our nation to be transformed; we cannot afford to exchange our moral prestige for the privilege of terrorizing people with a display of physical force."

Bryan departed from the prepared text of his speech to advocate a referendum in proposed declarations of war. "The experience through which Europ is passing," he said, "suggests the adop-

viding for a referendum on any decla-ration of war, except when the coun-try is actually invaded. This will not only be a safeguard to us, but it will be an example to the nations of Europe, where the right to declare war is vest-ed in the executive instead of with the legislative body, as here."

On the "Dry" Question,
Bryan said, in favor of extending Bryan said, in ravor of extending "dry" territory: "I have saved for the last the reform which will involve the flercest contest, and which will, when accomplished, bring the largest benefit,

accomplished, bring the largest belief, namely, abolition of the saloon.

"The Democratic party, having won without the aid of the wet cities and having received the support of nearly all the prohibition States and the States where women vote, is released from any obligation to the liquor traffic. It is free to take the moral side of this great moral issue, and I have no doubt that it will live up to its opportunities and "The argument that national prohibi-

tion is an assault upon the rights of the States has little weight in the States which have already adopted prohibition, and its weight in the nation will, therefore, diminish as the number of prohibition States increases. No riends of State government need be uneasy. The defense of the rights of the States can safely be entrusted to men who are sober and to those who en-courage sobriety by removing the temptation that surrounds drinking places. Representative Bailey of Pennsylva-nia, a lifelong friend of Bryan, launched a 1920 presidential boom for the former ecretary of State amid great applause. He said Bryan was the logical candidate of the party. Bryan smiled in acknowledgment.

Since coming to Washington two or three days ago, Bryan has made it perfeetly clear that he intends to have a hand in the formulation of future Demoeratic policies. He will spend the win-ter in Florida and North Carolina, and the told some of his hosts that he expected to be in Washington a great leal to "work for the things in which I m interested."

The present administration, the At-orney-General says, has insisted upon nore effective dissolutions of monopolies and combinations in restraint of trade and at the same time "has been solicitous to avoid prosecutions for which there is no adequate ground."

During the year 10 of these cases have been generally determined and of cases now pending 15 have reached the Supreme Court.

Enforcement of the Mann act led to 334 convictions, 54 cases nolle prossed, 5 acquittals and 400 cases are still ding. Since the law was passed there have been 1837 convictions, sentences aggregating 2468 years and fines totaling \$172,000. Legislation is urged to enable wives to testify against their

STATE CAMPAIGN

Amount the Largest Ever Raised for Similar Purpose in Missouri.

By a Staff Correspondent of the Post-

Dispatch. ALBANY, Mo., Dec. 7 .- The financial report of the Democratic State Commit-tee for the 1916 State campaign, filed in the Recorder's office here, shows total receipts of \$127,969.43, and expenditures of \$126,555.47, the largest fund ever collected and spent in a Missouri campaign. The fund was derived from assessments of State employes, most of whom ontributed 2 per cent of one year's salary; a contribution of \$46,500 from the cratic National Committee, which was by far the largest sum ever sent into Missouri by the national organizaion of either party, and contributions rom candidates and others interested in the success of the Democratic ticket. The expenditures are shown so far as the names of the recipients of lump ims of the money is concerned, but little information is given as to the purpose for which the money was used. Members of the Democratic City Comnittee of St. Louis received \$19,765.

Policemen Here Gave \$4515.

James Espy, secretary of the St. Louis
Board of Police Commissioners, collected \$4515 from policemen and in addition there were a number of contributions in the names of the individual policemen, The attempt of the committee to collect a campaign fund from the teachers of the State does not appear in the report to have been successful. There are no entries which can be traced to the State educational institutions, and if collections were taken there they were widely known as being connected with the institutions.

The \$1000 contribution shown in the ersonal report of Governor-elect Gardner, on file in the office of the Secretary of State in Jefferson City, appears in the State Committee report. There also appears a contribution of \$2500 from his brother, Russell E. Gardner, and 1012 as a "collection at the St. Louis Coffin Co." of which the Governor-elect

Among the expenditures of the committee the amounts received by the members of the Democratic committee of St. Louis are interesting as showing the needs of ward politics. Most of the committeemen received their allotents of cash in four installments. Early in September nearly all the comnitteemen received from \$65 to \$150 each. The latter part of September there was another allotment of from \$75 to \$240 Nov. 3, a few days before the election, they received the bulk of their money, the amounts ranging from \$350 to \$700. The amount each committeeman is shown by the report to have received is Patrick O'Neill, First Ward, \$710; James J. Walsh, Second Ward, \$620; Senator Joseph Brogan, Third Ward, \$650; James P. Miles, Fourth Ward, \$575; Thomas Egan, Fifth Ward, \$550; A. A. Lancaster, Sixth Ward, \$620; J. J. Mestres, Seventh Ward, \$600; J. J. USING CANDLES FOR LIGHT

Haven't Any Landlord or Electricity and Water Is Likely to Be

Although Fred L. Hisgen, who has been conducting the Park Hotel at University City, has vacated under a suit for possession brought by the Trust Co. of St. Louis County, about 50 guests are still there. The electricity was turned off yesterday, because of an unpaid bill of \$89, but the guests bought candles for illuminating the lobby and their rooms. Today they were informed that the water would be shut off on account of an unpaid bill of \$80, so they will

Hisgen says he wanted to vacate three months ago, but was told by James E. Hereford, the former president of the trust company, that a deal was on to sell it, and as they wanted it to be a going concern, Hereford gave him permission to remain without paying rent. Ten days ago, he says, Chris Ruem, the new president, ordered him out and, the new president to collect only he was able to collect only \$13 of the \$500 due Dec. 1 from guests.
Therefore, he was unable to pay bills.

Great Harm.

Now is not the time for the United States to attempt to bring about peace in Europe, in the opinion of the Rev. Charles S. Macfarland, general secretary of the Federal Council of Churches of Christ in America, who reported to the council, in session at the Second Baptist Church today, his observations on a tour of the warring nations of Europe. He visited England, France and Germany last January.

"A mistaken movement for peace at this time might work incalculable narm and delay," Dr. Macfarland delared in his report.

"The general attitude in Germany has undergone a marked change from the manifest spirit of bitterness at the beginning of the war to their present attitude of Christian reconciliation, which they declare to be without reference to the political differences they still maintain. I believe they might easily be ready for an adjustment on the assumption of the situation before the war; in other words, on even terms. The allies, however, especially France, are not ready for this."

Dr. North Elected President. The Rev. Dr. Frank North of New York, corresponding secretary of the Board of Foreign Missions of the Methodist Church, was elected president of the council at last night's meeting, after having declined the position earlier in the day. Dr. North is widely known as the author of a hymn on social service, beginning "Where Cross the Crowded Ways of Life." This hymn was placed in the new hymnal of the Prot-The Rev. Dr. Frank North of New placed in the new hymnal of the Protestant Episcopal Church, by action of the recent general convention of that church, held in St. Louis.

The Rev. Dr. Rivington D. Lord and A. R. Kimball, also of New York, were re-elected corresponding secretary and treasurer of the council, all the elecons being for terms of four years. Dr. North, as chairman of the council's Executive Committee during the last four years, made his report today, describing the organization's work and growth during that period.

growth during that period. The spe-cific work of the council, which he de-scribed, included war relief propaganda, the increase of chaplains in the army and navy, rural survey of Ohio, the visit of the general secretary, Dr. Charles Macfarland, to the European ountries at war; the visit to Japan in the interest of friendly relations with this country, and the bringing of Japa-nese labor leaders to America. nese labor leaders to America.

Ministers' Pension Fund. A plan for an interdenominational pension fund for ministers was contained in a resolution offered by the Rev. Dr. William H. Roberts, stated clerk of the Presbyterian General Asclerk of the Presbyterian General Asembly. The proposal was referred to the Business Committee of the Council. The Home Missions Council, in its report to the Federal Council, this afterrecorded progress of the American Indian and the negro. It was stat-ed that the Indians are more than hold-ing their own in population and that a generation of "alert, enterprising In-dian citizens and church members" is growing up. The Home Mission Boards, it was stated, have arranged a division

of the Southern negroes, it was stated 70 per cent can read and write, as compared with 10 per cent a half century ago. They have built and control 200

Wealth of Negroes. Wealth of Negroes.

"A half million negroes," the report says, "own homes and farms valued at a billion dollars; 1000 patents have been entered in the Patent Office by colored people; 30,000 negroes are engaged as architects, electricians, photographers, druggists, physicians, owners of department stores, mines, cotton mills, dry goods stores and wholesale houses. They publish 400 newspapers. Wisely the colored man has turned from the crowded cities to the open country he crowded cities to the open country n the South. Forty per cent of all negroes."

Regarding the work of churches citles, the report says:
"One sermon a week to a selected au

dience of a few hundred people is likely to be very satisfactory to this chosen ompany, while it is a totally inexcusable xtravagance of the Lord's money. Reeasing us from unnecessary denomina tional competition may permit us to cash in many millions of dollars of unearned increment on our real esstate, with the consequence that vast funds will be released and ample energies liberated by which every section o every city can have an adequate administration representative of the types of our faith properly needed and reasonably

ACTION ON WIDER OLIVE STREET

The Board of Public Service at 10 'clock tomorrow morning will take final action on the proposition to widen Olive street from Fourteenth street to Channing avenue. The proposal was made several months ago to cut three feet from each sidewalk, thus increasing the width of the

roadway from 36 to 42 feet.

The estimated cost of the work, and the repaying of the entire section with wooden blocks, is put at about \$96,000. It is understood that the improvement will be vigorously opposed by some property owners.

Misleading Advertisements Used to Swindle Public Result in Arraignment on Charge of Grand Larceny

IT doesn't pay to be a crook. It doesn't pay to use false or misleading advertisements, and, more particularly, it doesn't pay to use the Victrola as a basis for commercial malpractice. There was a man in Brooklyn, N. Y., who tried it. He's in jail. It happened this way. Frank R. Stone, who lives at 2459 Bedford Avenue, Brooklyn, N. Y., read an advertisement in one of the Brooklyn papers, in which a \$200 Victrela was offered at \$60. Mr. Stone communicated with the advertiser.

"It's a shame," said the latter, "but I've got to let the machine go. It belongs to my daughter. She bought it a couple of menths ago, and it's as good as new. Now she's come to live with me and there's a talking machine in the house already. So what can I de?

This all sounded very reasonable, so Mr. Stone took the machine. It didn't take him long, however, to realize that it wasn't a Victrola at all, and that he had been swindled. That Is Why You Should Be Careful Where You Buy Your VICTROLA.

THE BRITISH CRISIS.

Lloyd-George undertakes the task of organizing a new Cabinet under extraordinary conditions. The British nation is confronting the greatest crisis in its history— a crisis involving the vital interests, if not the life, of the British

Having come into power and popularity as the vigorous and courageous leader of the radical wing of the Liberals, he is now called to the head of the Government as the idol of the Tories, his former enemies. A few years ago, when Lloyd-George was fighting aristocratic privilege and and monopoly he was the black beast to the men who are now demanding his governmental leadership.

From the leadership of the British democracy he assumes the leadership of the forces of centralization. The crisis which brings him to the front he has in the main caused by demanding with his former enemies of the Conservative benches and the Conservative press a practical dictatorship for the conduct of the war. As the conduct of the war nearly absorbs the energles and resources of the nation, the demand is in effect for a national dictatorship. The Lloyd-George group insists upon a government within the Government, composed of a small War Council, with the power and responsibility of direct-

It is not astonishing that Lloyd-George should join hands with the forces of centralization. Although he has led the British democracy, he has long been enamored of the German Socialistic organization. Paternalism has been the form of much of his social program in behalf of the

ing the war.

The new Premier has a double task, either one of which calls for a man of genius. He has a huge task of diplomacy and statesmanship at home. He must weld together the political forces necessary to the organization of a strong Government. If he succeeds in this he must then organize victory in the field.

Measurable success in the first task is necessary to obtain the opportunity for the second. Success in the second will assure continued success at home. How much party politics and personal ambition have had to do with the present governmental crisis cannot be determined yet. But back of these factors in the upheaval is popular turnoil, caused by a search for the man who is LETTERS FROM THE PEOPLE capable of doing the work that the nation must do. The British people are seeking the man of the hour, the leader who can command efficiency at home and in the field. They will overturn Cabinets and military staffs until they find him. In our Civil War Lincoln was forced to shift comprovide separate depots. We should, by all means mand until he found in Grant the man who demonstrated successful leadership with a sheaf of

PICAYUNE FINANCE.

The 10-cent cut in the tax rate, reported to be greed upon by Mayor Kiel and Comptroller Player, is a picayunish policy.

The plea of poverty is the usual obstacle to m. vements in St. Louis. It is the chronic objection of the Comptroller, who recently threat ened the city with bankruptcy on account of the nunicipal bridge and other public works.

Because we happen to have a little extra money in the mill tax payment, part of this windfall is to be taken for current expenses and we are warned that appropriations for things needed will have to be cut. It is easy to cut the tax rate, but the hardest

thing in the world to get it raised again, on ac-

count of politics; so probably Messrs. Kiel and Player will leave the city a legacy of poverty which will be a bar to progress for years to come. The tax cut may be good politics in the smallest sense of the word, but it is bad municipal business. We need more, not less, revenue. But we should have it spent in the right direction-not to support political hangers-on at the city hall.

The international peace arrangement should be carved in granite. No more "scraps of paper."

THIRD TERM FOR WILSON.

Ex-Boss Croker returns to this country to predict that President Wilson will be given a third term and that this honor will be accorded with the support of "Republicans and all persons who are interested in good government."

It is perhaps natural that a tribute to Mr. Wilson from one who has been out of touch with the country for some years should take this form. It happens, too, that Mr. Wilson is not bound by any "under-no-circumstances" pledges.

But it also happens that recent experiences in this country have not been such as to cultivate in our Presidents or ex-Presidents any very intensive ambition to run for third terms.

Again it is reported that the Russian booze fighter "tanks up" on furniture polish. Doubtless it adds to his zeal in smashing his furniture.

JUDGE GRIMM AND THE JUVENILE COURT. Judge Grimm's explanation of why he did no yield to the request of many forward-looking citizens that he remain in charge of the Juvenile Court for another year is both clear and convincing. He felt that he did not wish to retain the burden with the handicaps involved in the present system. Believing that the Judges of the Circuit Court as a whole might be able to find a way out of the difficulty, he thought it bad taste in him to outline to the other Judges the conditions upon which he would be willing to retain

'The jurist's theory of what the Juvenile Court ought to be are in line with Post-Dispatch suggestions on the subject. To link the Juvenile Court to a criminal division he declares indefensible from any point of view. It ought to be a separate division and the man in charge of it ought to be free to give it the time and attention it deserves. He should not be troubled with jury the embarrassment and difficulty of finding his decision. It may greatly influence our relations own substitute if, for any reason, he must be absent from his duties.

It is to be hoped that the Judges in general term will find a means to remedy matters. If it is necessary, the people should be willing to increase the number of Judges. St. Louis cannot afford to be dilatory or negligent about a matter that touches the welfare of the children.

There is a movement on foot among the regular pastors to put all evangelists on salary to keep them from making so much money by collections. Seeking a sort of union scale for the workers in the vineyard, as it were.

A NATIONAL BASIS FOR BOOSTING. CERTAIN traveling man visits this city. His first few visits resulted in poor business for him, and it was his wont to say: "Of all the cities I make, and I make them all. St.

Louis is the worst. It is the deadest. There is no life. The people are stick-in-the-muds," And other small gems of cheer.

In the course of time his business grew to consideral proportions here, and his song changed. "This," chanted he. "is my idea of a regular town.

The people are a bit conservative, but soundly so. I'd like to live here. What a wonderful residence district you have!" All of which goes to prove what I have long main-

tained—that it takes a successful man to be a booster, and that boosting is not necessarily a success. According to the brilliant staff of theoretical business men who write those stunning business stories for the Saturday Evening Post, the lad who boosts is the lad who succeeds.

But not so, good friends. It takes a success to be the genuine 99.9 pure booster. Such a one has something to boost about. First he gets his, and then tells you what a dandy place it was he got it in. Show me a man who has done well in a community, and I will

show you a plugger for that community. The better he has done, the bigger he will plug. And the chappie who goes about telling everyone what a grand old burg it is, and hasn't a cent in his jeans to prove it, is fooling only himself. He is not

a booster. He is a simp. One peculiar feature of the psychology of St. Louis is the number of successful men who are exceptions that prove the rule as I have stated it. A perversity of mental habit makes a certain class of successful St. Louis business men nod in agreement with the blatant visitor from Kansas City, who kindly tells why a committee should be appointed to find a suitable final resting place for St. Louis. The men afflicted with this disease, which might be called "St, Louis Melancholia,' are as incurable as any cases of

place in which it was achieved. But to the new, vigorous, healthy, successful booster for St. Louis I bring words of good cheer. A brother raises his voice to let you know you are not alone. Watch Out For Anonymous Shoes

N expert recently offered to tell the REGAL Shoe makers how to cut down the cost without effecting the appearance of the

The Head of the business said "My friend, we are not interested in taking something out of REGAL shoes-but in putting more into them."

The REGAL business grew from a small beginning. It was built on a knowledge of shoe leather-a study of shoe style and shoe service -of human feet and how to fit them, not in study of price tags and eye effects-not on a knowledge of wax and finish and leather substitutes.

Note the above illustration. This shoe is photographed with a foot in it-not stuffed with paper or filled out with a wooden form. It will look just like this on your foot, if you let the REGAL salesman fit you properly.

We call this shoe the Rugby. It is made of sturdy Oil Grain Russia Leather with full double soles of white-oak tanned leather. Made for all weathers and finished as neatly as a glove-perforated tip over a medium city toe, invisible eyelets half way up, hooks for the upper lacing, broad backstay

from heel seat ending in the serviceable leather pull strap. The price is \$6.50.

A lot of men buy "window shoes" -an eye full of shoe and price tag. Window style is not foot style. REGAL Shoes are all for the foot-good style and good shoe-sense. A hard combination to beat when you consider these new and wanted leathers, selected hides, special tannage, in Russets, Mahoganies, Blacks and Two-tone effects.

There never was a time when it was more important in buying to know who made the shoe—the men back of it, their idea, their purpose, and how much they are thinking

Think for a moment of REGAL as an institution—the stake it has in the good-will of its two million customers: its forty REGAL stores in the Metropolitan centers: its thousand REGAL Special Agents in other towns and cities. Every REGAL Shoe is signed with the REGAL name.

An anonymous shoe is like an anonymous letter—it evades responsibility. It is our aim to deliver the best shoe-value in America

for the money. Good leather is scarce. The shoe situation is serious. Nobody can make the kind of shoe we think you ought to

wear for \$4 any more. We advise you to pay \$5 and up—and to get REGAL Shoes if you can.

In a recent discourse, Dr. E. Sauer, a Specialist who has studied widely both in this country and Europe, said: "If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack from and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue, and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become gener-ally weakened, nervous and all run down, and frequently develop all sorts of con-ditions. One is too thin; another is bur-dened with unhealthy fat; some are so reak they can hardly walk; some think trouble; some can't sleep at night; others are sleepy and tired all day; some fussy and irritable; some skinny and bloodless, but all lack physical power and endurance. In such cases it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your fagging vital powers for the moment, maybe at the expense of your life later on. No matter what anyone tells you, if you are not strong and well you

Baker calls attention to the fact the he did not take office until March 9 1916, succeeding Gen. Scott, who was Secretary ad interim after the resignation of Secretary Garrison. He review briefly the history of affairs on the Mexican border, beginning with the raid on Columbus, N. M., and carrying it forward to Nov. 20, the date of the report. On that day, he says, there are still 110,000 officers and men of the na-tional guard on the border in addition to approximately 48,000 members of the regular army.

Under the subheading, "The pr situation," the report continues: "The mere presence of this enlarged

Disturbances by outlaws and bandits in Northern Mexico have continued and roving bands of various numbers have moved through the territory, harassing Mexican forces and raiding Mexican communities, but they have not ventured an attack upon the people of the United States. In the neantime, the militia forces on the border have been drilled, their organizations perfected and their personnel accustomed to life in camp in the perform ange of this defensive cuty."

The report goes at some length into the odd situation which was presented when the national guard was summoned for border duty. Reorganiza of the force under the national defense act was in progress, but not completed at the time: Baker says, and many complex problems had to be solved.
"The confusions and difficulties at-

tending the mobilization," he continues,
"will seem insignificant in comparison with its success and with the splendid spirit with which men and officers of the national guard respond."

The Secretary points out that the duty

D'BRIENS SETTLE TROUBLES WITH THE MOVIE CONCERN

the Suit for a Receiver

Is Dropped. When the receivership suit brought by Mr. and Mrs. Joseph O'Brien of 2618 Hodiamont avenue against the Missiswas called for trial in Judge Koerner's court today, B. L. Matthews, attorne for the plaintiffs, asked that it be dismissed, and this was done. Matthews said that an amicable settlement, satisfactory to his clients, had

been reached out of court. O'Brien invested some money in the ncern and was made superintendent of the company's plant at Suburban Garden. In a dispute a few days ago about money with George W. Helmrich he shot and wounded Helmrich. The filing of the receivership suit followed.

HIGH SCHOOL PLANT WILL FURNISH LIGHT, HEAT, POWER

Expected to Be Ready to Operate in

by New Year. It is expected that the new lighting, heat and power plant will be ready to pperate at the East St. Louis High School and Horace Mann School by the first of the year. One of the two engines has been installed. The plant will be installed at a total cost estimated at \$9300. The light and power bill for the two schools, which

is outside the cost of fuel. The new plant furnishes light, hea and power. The only increase in the operating cost of the new plant over the old heating plant, alone, will be the cost of a slightly larger amount of fuel. No new employes will be needed. A new manual training shop, not yet opened, will be supplied with power.

Piker Games in Doubt.

Washington University will be represented tomorrow at the annual schedule sented tomorrow at the annual schedule meeting of the Missouri Valley Conference at Manhattan, Kan., by Prof. W. C. McCourt, who has authority to arrange the 1917 games for the Pikers. Dr. Edmunda, the football director, is at his home in Cleveland, while Prof. F. A. Berger, faculty director of athletics, is busy straightening out the finances of the St. Louis-Washington game.

A joint meeting of the faculty representatives of the two schools was held last night, but a full accounting was not made. Eight different kinds of tickets were sold for the Thanksgiving day game and as yet no trial balance has been struck. The cash receipts, however, are expected to reach the \$3000 mark.

at the world's championship gate. The eighth wonder is found at last, Carl is only 29 years of age and, while not a finished boxer, is a terribly rough guy.

Lacking a snappy straight punch, he mauls and roughs and wears down his opponent by means of his titanic strength and bulk. His 235 pounds make him seem all but irresistible, in a long fight.

> GIANTS' UNIFORMS TO BE A RIOT OF VIOLET IN '17

MAGINE what a collision of TWO such leviathans would result in, if they were led into the same ring, with the understanding that only one could walk out. It would unquestionably be the most tremendous encounter in the history of the ring, for neither man seems able to dispose of the other in a punch.

A long, grueling struggle, with unheard of punishment and unequaled feats of endurance, ending with the slow wearing-down of the resisting powers of one or the other, seems promised by the make-up of the principals.

In all probability no such bout will ever be arranged. This is because Willard does not want any such fight, to judge by his words and attitude. It is more probable that he will go into retirement rather than submit to the terrific ordeal of long training, followed by the worse one of the fight itself.

Nor can you blame him, much. Morris, however, would accept in a moment any such proposition.

GIRLS' BASKET SEASON WILL OPEN TOMORROW

On the other hand, the fight, if reduced to a 10-round no-decision bout, would have no value, since Morris is a weird boxer and would probably lose to Willard after a most uninteresting contest.

This mention is not an argument in favor of the finish fight. It merely calls attention to the trend the heavyweight situation promises to take with Morris as the objective.

They are willing, aggressive boxers and their styles are very similar. Both believe in dealing out hard blows to the exclusion of fancy taps, and both can stand heavy punishment. Their bout is scheduled for 12 rounds, at 133 pounds. The semi-final is between Charles Hittler and Willie Nichols, a pair of 135-pounders, who did very well as amateurs. They are scheduled to box eight rounds. It has been erroneously stated that these boys met last year as amateurs for the "city championship" at their weight. No such contest took place, nor could it under the rules of the Amateur Athletic Union. No amateur championship boxing contests have been sanctioned in this city since 1804, when championships were decided in the Olympic games at the World's Fair. Pete Macklin and Will Sheehan will box in the preliminary, six rounds at catch-weights.

John B. Denvir, a Democrat, has been named as secretary and treasurer of the Citizens' Nonpartisan Committee for the investigation and prosecution of election frauds. This was announced today by Paul Bakewell, chairman of the committee, who said also that nearly \$1000 has been collected, in contributions of \$100. for the committee's work, and that at least one-third of the contributions are from Democrats.

Former Judge Henry S. Priest, in a second letter to Bakewell, calls to members of the committee' pawns' and likens them to a ventriloquist's dummy, He says the committee's object is a partitisan one, and that its proposed expenditures, in some cases, are for maters which are not of public concern. He writes:

Charity By Eric A. Kammann.

F Mother Tooney knew that it wa bad for her eyes to be sewing by the light of the lamp on the litthe table, she did not stop to think about it much. Of course they ached times, when she would drop he hands into her lap and lean back with closed eyes to rest; but one's eyes must tire eventually, as well as one's cles. The dainty work grew unde the skillful manipulation of the needle the desk in the office of the Exchange for Women's Work had said that the collars must be finished in 10 days which would have been ample time if the work could have been carried to completion without interruption. But Mrs. Trepovak downstairs, flat on her back and helpless, with four children to cook for and be looked after, took up more of her time than she had an-ticipated. So the only thing to do was to sit up a little later at night.

Her thoughts, however, as she ben over her sewing, were not with Mrs. Trepovak below. They had strayed off the street to Samuel Goldman orium, with its array of men's apparel of all kinds, sizes, prices and values. Especially to the further show window, where there was displayed lice of the lot at \$10." She kne uel Goldman well enough to know that he was not enough of a philan st to indulge his humanitaria urgings at the expense of his pocket but her appraising eye had caught one in the corner worth the price asked for it. Her husband, whose breathing, betokening the deep sleep of a tired man, came to her from the t room, she knew would not spend money for an overcoat for himsorely though he needed it, for enforced idleness of the long ike ended three weeks ago had left m with money as the least of their ubles. But the collags were almos uld take them over to the exange. And in a day or two, as soon the lady who had ordered them had d, she would get her \$10. And John ald not need to freeze.
